

Auto Import Console & Service Applications

VERSION: 7.9.0.0

RELEASE DATE: AUGUST 25, 2020

Auto Import Console is a console application that can be launched using a command line interface or run as a scheduled task. Auto Import Service runs as a service. Both applications reformat and import text-based statements as well as PDF statements into the DocLogic Statements system.

PRODUCT UPDATES

- Rebuilt for ConState 7.8.0.1 for stripping extra form feeds at the end of a line for Neighbors Credit Union.

SYSTEMS REQUIREMENTS

These versions of AutoImport requires MySQL Configurator 8.7.1.0 (or later). They are **not backward compatible** with versions before 7.0.

- Windows 8.1 and 10
- Windows Server 2012, 2016, and 2019 Standard R2
- Other OS and third-party applications may or may not be 100% compatible and are not officially supported. For more information on hardware requirements click [here](#).

USER MANUAL

Auto Import Service instructions are part of 2020COLD Statement documentation. Access this manual by logging into our Client Center and clicking the eLearning tab: <https://edoclogic.com/>.
